TMA-2 STUDIO WIRELESS+

PROFESSIONAL WIRELESS HEADPHONES
FOR MUSIC CREATORS

MSRP US\$350 | €350 | £300

World's first wireless headphones for music creators. Empowering music creators with the freedom to create wirelessly. The TMA-2 Studio Wireless+ is a versatile professional headphone, designed for today's dynamic creative workflow. Featuring new W+ Link technology for ultra-low latency and lossless audio, added Bluetooth 5.0 with +80h playback, and a coiled hi-fi cable.

Part of the TMA-2 modular headphone system, renowned for its sturdy build and responsible design. Modularity allows users to upgrade or replace individual headphone parts as technology or needs evolve, to extend the functional lifetime of the product and create less waste for the planet.

Wireless music creation with ultra-low latency and lossless audio with W+ Link technology

Lossless and robust 16ms latency connection for high quality wireless audio designed for enhanced freedom and creativity.

Extended versatility with added Bluetooth for +80h playback and hi-fi coiled cable

Seamlessly switch to Bluetooth 5.0 with +80h playback for everyday listening and inspiration, and a coiled hi-fi cable included for a traditional connection.enabled device. Seamlessly switch between wireless modes on the headphone.

Signature AIAIAI bio-diaphragm speaker tuned for clarity and detail

Critically acclaimed sound stage specifically designed for music creation with a clear and highly detailed sound representation.

Enhanced comfort with Alcantara®

Ultra soft over-ear memory foam cushions covered with resilient, CO2 neutral and highly comfortable Alcantara, ideal for longer sessions.

Responsible modular headphones – designed to last

Upgrade and expand as technology or needs evolve to extend the functional lifetime of the product and create less waste for the planet.

What's included?

S05 DETAILED SOUND - BIO-DIAPHRAGM

Engineered with a 40mm speaker diaphragm made from stiff bio-cellulose to reduce distortion. Clean, spacious and highly detailed sound.

H10 WIRELESS+ HEADBAND

Comfortable and durable headband with 3 connection modes: W+ Link ultra-low latency wireless, Bluetooth 5.0 and cabled.

X01 WIRELESS+ TRANSMITTER

Portable transmitter for W+ Link low latency wireless connection.

E08 OVER EAR - ALCANTARA®

Ultra soft over-ear memory foam cushion covered with Alcantara®, an aesthetic, functional, and CO2 neutral material. Highly comfortable and ideal for longer listening sessions.

C02 COILED - 1.5M - ADAPTER

Coiled black 1.5m thermo plastic cable with soft touch surface. Extends up to 3.2m. Perfect for DJing or small studio use. Comes with 1/4 to 1/8 screw-on adapter.

A01 PROTECTIVE POUCH

Designed to protect your headphones from dust and scratches, the A01 protective pouch is made from soft nylon and features a mesh inside. Fits any TMA-2 and Tracks headphone.

Specifications

SPEAKER UNIT
